

The Zodiac Killer Ciphers

The Zodiac killer was a serial killer who was active in the San Francisco area in the late 60's and 70's. In addition to killing he made ciphers that he sent to the police and newspapers. Could his ciphers be cracked? The talk is mostly non-technical, the only cryptanalysis in there is of the substitution cipher kind (=L, ?=I, §=L, %=K decrypts %?§& into...), and there is a lot of story telling. So very accessible to everybody.
